## SUMMARY

Welcome to my profile! I am a seasoned full-stack software developer and Ui/Ux designer with a passion for crafting elegant solutions to complex problems. With 6+ years of industry experience in Full Stack software development and 3years of experience in UI/Ux desgins, I have honed my skills in both frontend and backend development, delivering high-quality, scalable applications that exceed client expectations.

- Technical Expertise: My toolkit includes:
  - Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Angular, Vue.js
  - Backend: Node.js, Express.js, Django, Flask, Laravel
  - Databases: MySQL, PostgreSQL, MongoDB, Firebase
  - DevOps: AWS, Azure, Google Cloud Platform
  - Version Control: Git, GitHub
- Problem-Solving Approach: My approach to software development is rooted in problem-solving. I thrive on dissecting challenges, architecting robust solutions, and implementing them with precision. Whether it's building intuitive user interfaces, optimizing database performance, or fine-tuning backend algorithms, I am dedicated to delivering results that align with your project's objectives.

---

## EXPERIENCE

### Project Manager & Full-Stack Software Developer | Regia Digitals

Jan 2024 - Present

- Led and managed multiple software development projects, ensuring timely delivery and adherence to client requirements.
- Coordinated cross-functional teams, fostering collaboration and efficient workflows.
- Utilized project management tools to track progress, manage resources, and communicate effectively with stakeholders.
- Developed comprehensive project plans, defined project scopes, and set achievable milestones.
- Implemented agile methodologies to enhance team productivity and project outcomes.

### Networking and Maintenance | NYSC

Mar 2024 - Present

- Expanded skills beyond traditional development tasks, focusing on networking and system maintenance.
- Gained insights into network setups, troubleshooting issues, and ensuring smooth system operations.
- Collaborated with the IT team to optimize network performance, implement security measures, and provide technical support.

**Full-Stack Software Developer | SupremeWeb Ltd****Apr 2024 – June 2024**

- Built web applications from scratch to completion, handling both frontend and backend tasks.
- Managed database design and performance, ensuring data integrity.
- Deployed and maintained applications, troubleshooting issues, and collaborating with stakeholders.

**Full-Stack Software Developer | ZILT INVESTMENT LTD****Dec 2023 - Jan 2024**

- Managed end-to-end responsibilities from designing user interfaces to managing databases and server-side logic.
- Utilized technologies like HTML, CSS, JavaScript, React, Node.js, and Express.
- Ensured data integrity and performance in database design and management.

**Backend Software Developer | APPCLICK TECHNOLOGIES LTD****Jan 2023 - Aug 2023**

- Architected and implemented robust server-side solutions using Node.js and PHP.
- Collaborated with front-end developers to integrate elements seamlessly.
- Designed customer-facing UI and backend services to enhance user experiences.

**Python Developer | NEW HORIZON****Jul 2022 - Jan 2023**

- Demonstrated expertise in Python programming with frameworks like Django and Flask.
- Designed and implemented efficient algorithms and data structures to optimize performance.
- Managed databases using SQL and ORM frameworks like SQLAlchemy.

**UI/UX Designer | Freelance****Jan 2021 – May 2022**

- Designed and implemented user-friendly interfaces for web and mobile applications.
- Conducted user research and usability testing to inform design decisions.
- Created wireframes, prototypes, and high-fidelity mockups using tools like Figma and Sketch.

- Collaborated with developers to ensure seamless integration of designs.
- 

## EDUCATION

Bachelor of Engineering in Electrical and Electronics Engineering  
Landmark University  
Aug 2018 - Aug 2023

---

## LICENSES & CERTIFICATIONS

- Backend Development Certification  
Stutern Klusterthon, 2023
  - Full Stack Software Development Certification  
Appclick Technologies Ltd, 2023
  - Robotics And Artificial Intelligence Certification  
UBTECH Robotics, 2023
  - Python Programming Certification  
New Horizon, 2022 (NO NHN 60052)
- 

## SKILLS

- Leadership and Management: Project management, team leadership, agile methodologies.
- Technical Skills: Full-stack development, database management, DevOps.
- UI/UX Design: Wireframing, prototyping, user research, usability testing, Figma, Sketch.
- Problem-Solving: Analytical thinking, efficient algorithm design, performance optimization.
- Communication: Effective stakeholder communication, technical support, collaboration.
